

DORYS

15th Congress sickle cell anemia

April 02 – 04, 2020

1 Rue Sainte-Marguerite, 67080 Strasbourg

Auditorium Michel DEBRÉ

Chers collègues,

Dear colleagues,

We have the honor to invite you to participate in the 15th international congress on sickle cell anemia which will hold in Strasbourg from April 02 to 04, 2020 at Ecole National d'Administration (ENA).

During these 3 days, French and international experts from Europe and the Americas, the West Indies, Guyana and Africa will present their work in plenary sessions and share their experiences in the fields of genetics, psychology, anthropology and interculturality in the therapeutic education of the patient, transfusion in the countries of the North and in the countries of the South, developments concerning transplants and gene therapies. A round table on the various old and new drug treatments on the market and finally all non-drug or alternative treatments such as adapted physical activities.

We particularly invite you to present communications by poster or poster.

You can now reserve the dedicated communication spaces that we offer.

We are happy to welcome you soon for this 15th edition of DORYS congresses, and we are doing everything we can to make it as rich as medico-scientific and human!

For any information, you can contact us at:

dorys.asso@gmail.com or phone at: +33 6 68 51 90 68

- Therapeutic forum
- Transfusion
- Transplants
- Gene therapy
- Exercices and sickle cell
- E-Health

PROGRAM FOR ASSOCIATIONS
Roles of associations, Networks, Foundations

Welcome to Strasbourg !

Strasbourg and History

Strasbourg, with its 2,000 years of history, enjoys a privileged position in the heart of Europe.

The choice of Strasbourg as the European capital in the aftermath of the Second World War is anything but a coincidence. It is the symbol of reconciliation between peoples and the future of Europe.

Strasbourg and Europe, Strasbourg and future

Strasbourg is one of the three cities in the world – together with New York and Geneva – hosting international institutions without being state capitals. It is the seat of several institutions: European Parliament, Council of Europe, European Court of Human Rights. Strasbourg is also hosting the office of the European Ombudsman.

In addition to the University of Strasbourg where the faculty includes four Nobel prize winners, Strasbourg is the home of several centers of excellence in the fields of health, smart mobility, major urban projects, industrial ecology, creative economy and industries of the future.

In Strasbourg, experience total immersion in Europe and discover at the same time the jewels of contemporary architecture.
